SUMMARY

Highly skilled Senior Software Engineer leveraging expertise in Go, System Design, CI/CD, REST APIs, React, and JavaScript to drive innovation and efficiency. With 5+ years of experience delivering scalable solutions, I excel in fast-paced environments, streamlining processes, and collaborating with cross-functional teams.

EXPERIENCE

Senior Software Engineer

GreenEarth Logistics

04/2026 – Present

Designed and developed a cloud-based logistics platform using Go and REST APIs, increasing delivery efficiency by 30% through optimized route planning. Collaborated with data scientists to integrate machine learning models, improving predictive analytics accuracy by 25%. Led a team of engineers in implementing CI/CD pipelines, reducing deployment time by 50%.

Site Reliability Engineer

Fusion Retail Group

11/2022 – 01/2026

Ensured high availability and scalability for e-commerce platforms using React and JavaScript. Implemented a monitoring framework to detect anomalies, reducing mean time to detect (MTTD) by 40%. Collaborated with DevOps engineers to optimize infrastructure performance, decreasing latency by 20%.

Software Engineer

Meridian Systems

01/2021 – 10/2022

Developed a real-time data visualization dashboard using React and JavaScript, providing actionable insights for business stakeholders. Collaborated with a cross-functional team to design and implement a CI/CD pipeline, streamlining the development process.

Frontend Developer

Riverstone Energy IT

11/2017 – 10/2020

Built responsive web applications using React and JavaScript, improving user engagement by 15%. Worked with designers to create visually appealing interfaces, enhancing overall user experience.

EDUCATION

Associate Degree in Computer Programming

Tucker University

01/2014 – 08/2017

SKILLS

Go | Git | System Design | CI/CD | REST APIs | React | JavaScript
