SUMMARY

Results-driven Solutions Architect with 4+ years of experience in designing and delivering scalable, cloud-based solutions. Skilled in Node.js, Go, AWS, Java, TypeScript, Git, and JavaScript. Proven track record of improving system reliability, reducing downtime, and enhancing overall customer satisfaction.

EXPERIENCE

Solutions Architect

Horizon Software

05/2025 – Present

Designed and developed scalable, cloud-based solutions for enterprise-level clients, leveraging expertise in Node.js, Go, and AWS. Collaborated with cross-functional teams to deliver high-availability systems, resulting in significant reductions in downtime and improved overall customer satisfaction.

Senior Software Engineer

Fusion Retail Group

01/2024 – 02/2025

Owned the development of multiple Java-based applications, working closely with stakeholders to understand business requirements. Utilized Git for version control and ensured seamless integration with existing systems, contributing to improved system reliability and reduced downtime.

Site Reliability Engineer

Vantage ERP Solutions

02/2022 – 12/2023

Focused on improving system reliability by designing and implementing proactive monitoring strategies. Utilized TypeScript and JavaScript to develop custom scripts for automated troubleshooting, resulting in swift issue resolution and enhanced overall system performance.

Software Engineer

Vantage ERP Solutions

12/2020 – 01/2022

Contributed to the development of multiple software applications, working on a multidisciplinary team. Utilized Git for version control and collaborated with colleagues to resolve issues and improve overall system functionality.

EDUCATION

B.S. in Data Science

Torres University

05/2017 – 09/2020

SKILLS

Node.js | Go | AWS | Java | TypeScript | Git | JavaScript
