SKILLS

- REST APIs
- Go
- TypeScript
- C#
- Kubernetes
- JavaScript
- System Design

EDUCATION

B.S. in Information
Technology
Martinez University
01/2011 – 03/2014

PROFILE

Highly skilled Senior Software Engineer with a strong background in building scalable and efficient software systems. Proven expertise in leveraging REST APIs, Go, TypeScript, C#, Kubernetes, and JavaScript to drive business value. Excels at designing and developing cross-functional teams.

EXPERIENCE

Senior Software Engineer

Sterling Partners

08/2025 – Present

Designed and implemented a scalable microservices architecture using Go and TypeScript, resulting in a 30% reduction in development time. Led a team of engineers to develop a cloud-based platform for data analytics, utilizing Kubernetes and REST APIs to ensure seamless integration with existing systems.

Full Stack Developer

UrbanGrid Mobility

03/2022 – 07/2025

Developed a real-time ride-sharing platform using C# and JavaScript, integrating with third-party APIs to provide users with personalized travel recommendations. Collaborated with cross-functional teams to deliver high-volume customer-facing applications, ensuring seamless user experience.

Frontend Developer

Lumen Networks

07/2018 – 02/2022

Built a responsive and intuitive web interface for network management using JavaScript and TypeScript, enhancing the user experience and reducing support queries. Worked closely with designers to create visually appealing and user-friendly interfaces.

Site Reliability Engineer

Meridian Systems

04/2014 – 02/2018

Ensured the reliability and scalability of a high-volume customer-facing application by designing and implementing efficient system architectures, utilizing Kubernetes and REST APIs. Collaborated with DevOps teams to streamline deployment processes and reduce downtime.
