SKILLS

- REST APIs
- System Design
- AWS
- Git
- Django
- FastAPI
- SQL

EDUCATION

M.S. in Information
Systems
Thornton University
04/2018 – 06/2022

PROFILE

Highly skilled Site Reliability Engineer with 2+ years of experience in designing and implementing scalable, secure, and efficient cloud-based systems. Proficient in leveraging REST APIs, System Design principles, and AWS to drive business value.

EXPERIENCE

Site Reliability Engineer

Silverline Insurance Tech

02/2024 – Present

Designed and implemented a scalable, secure, and efficient cloud-based system for processing high-volume customer transactions. Utilized REST APIs to integrate multiple microservices, ensuring seamless data exchange and reducing latency by 30%. Collaborated with cross-functional teams to optimize system performance, resulting in a 25% increase in overall system availability.

Backend Developer

Silverline Insurance Tech

09/2022 – 01/2024

Developed robust backend systems using Django and FastAPI, focusing on scalability, security, and maintainability. Utilized Git for version control and collaborated with the development team to optimize system performance, resulting in a 20% reduction in query execution time.
