- Kubernetes

EDUCATION

B.S. in Computer Science
Brown University
05/2011 – 01/2016

PROFILE

Highly accomplished Solutions Architect with 5+ years of experience in software development, management, and architecture. Proven track record of delivering scalable, high-performing solutions that drive business value.

EXPERIENCE

Solutions Architect

Vantage ERP Solutions

09/2023 – Present

Designed and implemented enterprise-level solutions using JavaScript and TypeScript, leveraging CI/CD pipelines to ensure efficient delivery. Collaborated with cross-functional teams to integrate new features, improving overall system performance by 30%.

Software Engineering Manager

Apex Digital

07/2021 – 06/2023

Managed a team of senior software engineers, overseeing the development of multiple projects using C# and Java. Streamlined processes, resulting in a 25% reduction in project timelines without compromising quality.

Senior Software Engineer

Helix Biotech

05/2019 – 01/2021

Developed high-volume customer-facing applications using React and Kubernetes, ensuring seamless scalability and reliability. Owned the delivery of multiple projects, resulting in significant improvements to user engagement and retention.

Frontend Developer

Helix Biotech

03/2016 – 04/2019

Built and maintained multiple web applications using JavaScript, focusing on UI/UX design and implementation. Contributed to the development of a high-performing customer-facing platform that improved user experience and conversion rates.
