B.S. in Finance
Jones University
07/2013 – 11/2017

PROFILE

Highly experienced Software Engineering Manager with a strong background in architecture, development, and team leadership. Proven track record of delivering complex projects and leading cross-functional teams to achieve business objectives.

EXPERIENCE

Software Engineering Manager

Apex Digital

01/2025 – Present

Spearheaded the design and development of enterprise-level software solutions, leveraging expertise in FastAPI, Java, and Python. Successfully managed a team of senior engineers to deliver high-priority projects, resulting in significant business value and improved customer satisfaction.

Solutions Architect

Meridian Systems

07/2022 – 10/2024

Architected and implemented scalable solutions using TypeScript, Node.js, and Go. Collaborated with cross-functional teams to design and deliver complex projects, driving business growth and improving operational efficiency.

Senior Software Engineer

Pacific Trade Systems

01/2019 – 02/2022

Designed and developed high-quality software applications using JavaScript and Python. Worked closely with developers to ensure seamless integration and delivery of projects, resulting in increased customer satisfaction and loyalty.

Frontend Developer

Lumen Networks

01/2018 – 12/2018

Developed responsive and interactive web interfaces using JavaScript and TypeScript. Contributed to the development of high-quality software applications, focusing on user experience and performance optimization.
