SUMMARY

Seasoned Solutions Architect with a strong track record of architecting and delivering scalable, cloud-based solutions that drive business value. Proven expertise in Microservices, Kubernetes, and DevOps practices, with a passion for innovative problem-solving.

EXPERIENCE

Solutions Architect

Apex Digital

09/2024 – Present

Designed and implemented multiple cloud-based solutions using Microservices architecture, resulting in improved scalability, reduced latency, and increased customer satisfaction. Collaborated with cross-functional teams to ensure seamless integration of new features and systems, driving business growth and revenue increases.

Senior Software Engineer

BrightPath Health Tech

11/2022 – 07/2024

Led the development of a high-volume customer-facing platform using Go and C#, achieving 30% faster response times and 25% reduced error rates. Implemented automated testing and CI/CD pipelines to ensure seamless deployment and minimize downtime, resulting in improved user engagement and retention.

DevOps Engineer

Vantage ERP Solutions

12/2020 – 05/2022

Streamlined the development and deployment process by implementing Kubernetes and containerization, reducing deployment time by 40% and improving collaboration among teams. Developed and maintained automated testing suites using Python and Git, ensuring high-quality software delivery and minimizing errors.

Full Stack Developer

BluePeak Consulting

03/2017 – 10/2020

Built multiple web applications using JavaScript and C#, focusing on usability, scalability, and maintainability. Collaborated with designers to develop intuitive user interfaces, resulting in improved customer satisfaction and increased conversion rates.

EDUCATION

B.S. in Information Systems

Coleman University

03/2014 – 02/2017

SKILLS

Microservices | JavaScript | Go | Kubernetes | C# | Git | Python
